VERTI CUT TURF MOWERS

TVM-5130

Plenty of features for top performance on your course, better turf management and dependability

TVM - FEATURES

77 or 130-inch cutting widths.

Rated for 24-45 HP tractors.

Wings fold hydraulically to a narrow transport width.

Ability to lightly groom or aggressively cut with minimal turf disturbance.

Cutting depth adjustments are quick and easy.

Cutting units are fully independent and follow contours with ease.

Standard reels are available to convert TVM into a reel mower.

Dyna blades available in 1/16 and 1/8 inch thickness.

Two year warranty includes belts.

Locke's series of **Verti Cut Mowers** are proven winners that give you outstanding turf maintenance with a minimum of labor and equipment costs. These mowers remove dead plant material and thatch, allow more accessibility for nutrients or chemicals and give you an overall healthier turf. A few simple adjustments allow gentle grooming or a more aggressive cut. The Verti Cut Turf Mowers are your best choice of implements for golf course and turf management.

Locke's **Verti Cut Mowers** are available in a selection of three or five-gang models, in cutting widths of 77 or 130 inches. Tractor requirements are just 24-45 HP to operate the PTO belt drive and transport hydraulics, and because drive hydraulics are eliminated, stress and heat buildup on the tractor is less.

These mowers are available in standard 1-1/4-inch blade spacing, but can be equipped with 5/16-inch, 9/16-inch or 1-3/16-inch spacers. A feature of all **Verti Cut Mowers** is that they can be converted to gang reel mowers. They fold easily for transport and are highly maneuverable.
